First 30 Minutes After Crypto Theft

Your assets aren't gone. They're frozen.

1	**Don't Panic (1–3 min)**	Take a breath. Do NOT move any funds. Do NOT delete messages from the scammer — they are evidence.
2	**Document Everything (3–10 min)**	Screenshot balances, txIDs, chat logs with the platform, exact time (UTC).
3	**Lock Down Access (10–15 min)**	Change passwords, revoke API keys, log out all sessions, enable 2FA.
4	**Freeze Assets (15–20 min)**	File an exchange ticket "URGENT: Account Compromised". For DeFi — revoke.cash.
5	**Start Tracing (20–25 min)**	Paste txID at blockchain.com / etherscan.io. Copy the recipient address.
6	**Contact Professionals (25–30 min)**	Message @karcryptosupport on Telegram. Prepare: txID, addresses, amount, timestamp.
